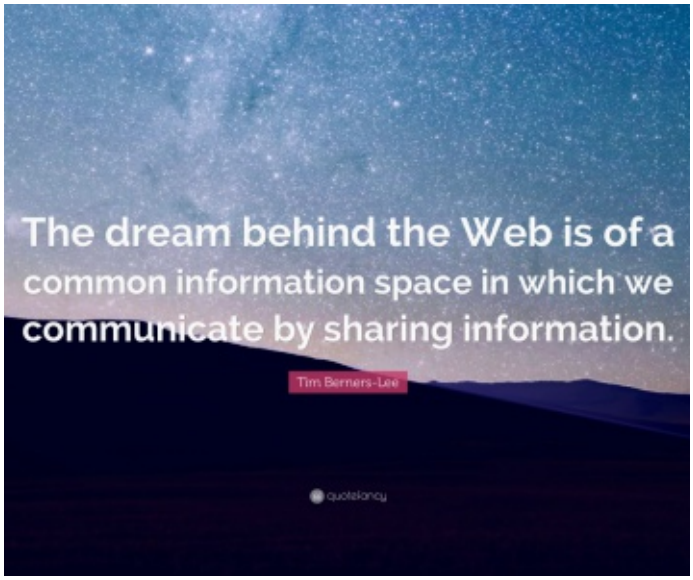
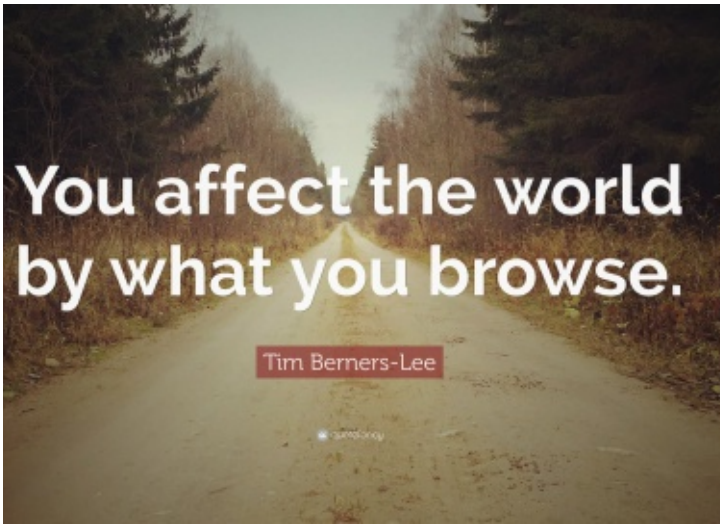
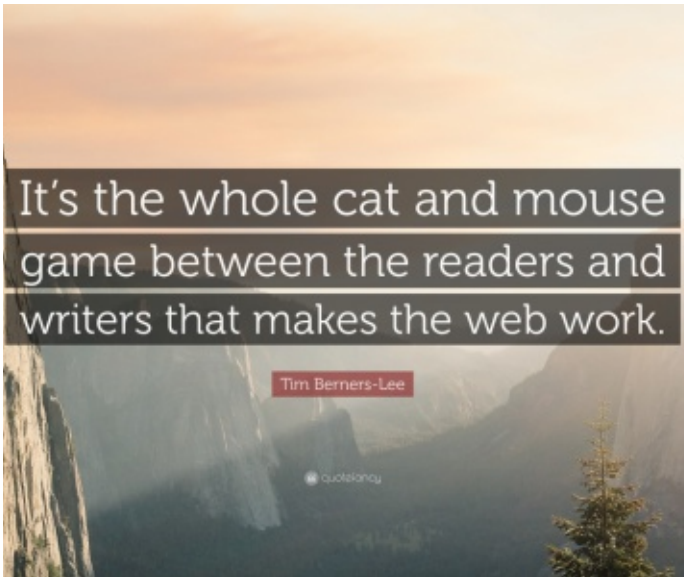
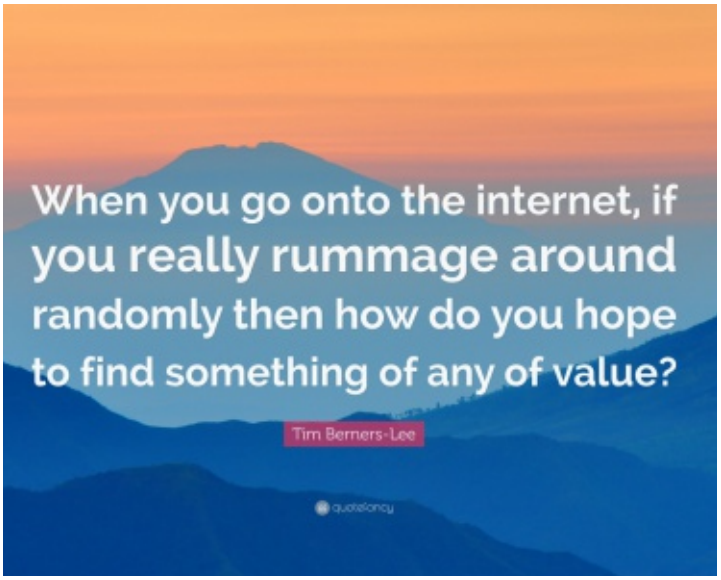
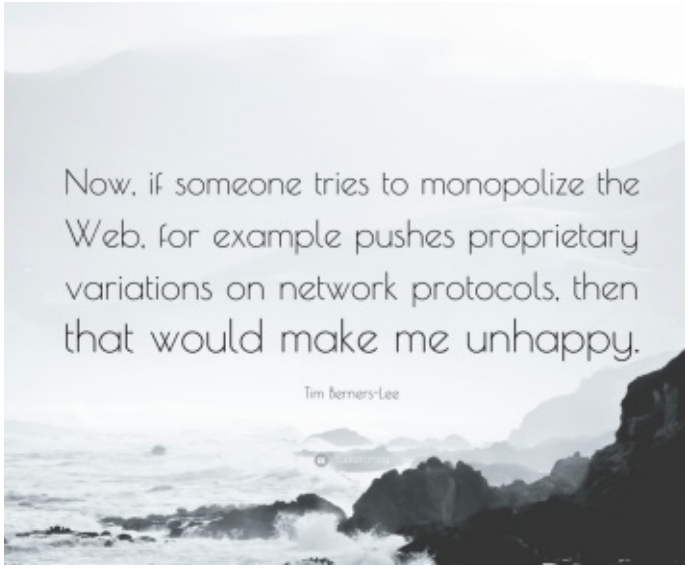
Quotations for the classroom

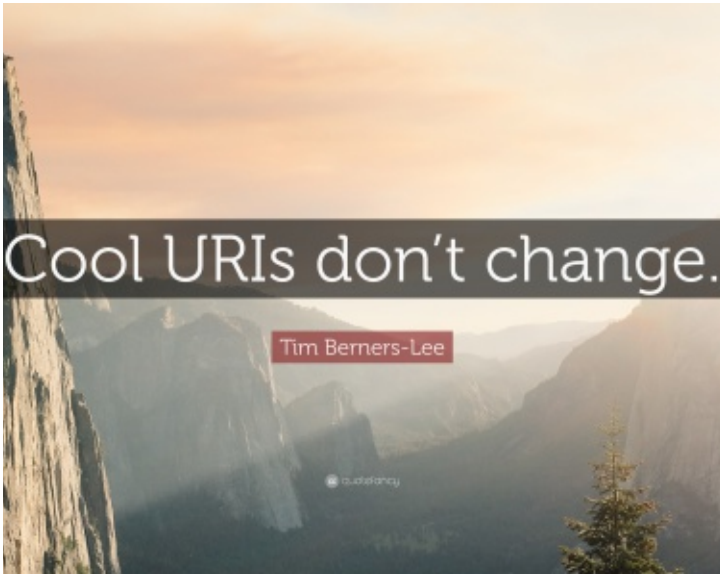












Quotations for the classroom

"Customers need to be given control of their own data-not being tied into a certain manufacturer so that when there are problems they are always obliged to go back to them."

- Tim Berners-Lee

"There was a time when people felt the internet was another world, but now people realize it's a tool that we use in this world."

Anyone who has lost track of time when using a computer knows the propensity to dream, the urge to make dreams come true and the tendency to miss lunch.

The Semantic Web is not a separate Web but an extension of the current one, in which information is given well-defined meaning, better enabling computers and people to work in cooperation.

When it comes to professionalism, it makes sense to talk about being professional in IT. Standards are vital so that IT professionals can provide systems that last.
